

Accelerating our customers' progress

Join us in Las Vegas at Cisco IMPACT 2019 and see how we are driving change for a deeper customer experience.

Visit us on stand PS55 and see our team demonstrating Customer Experience solutions to drive the changes of tomorrow – Hybrid Cloud Demo Centre, LOOP Innovation and DevNet.

The Logicalis Customer Success Framework

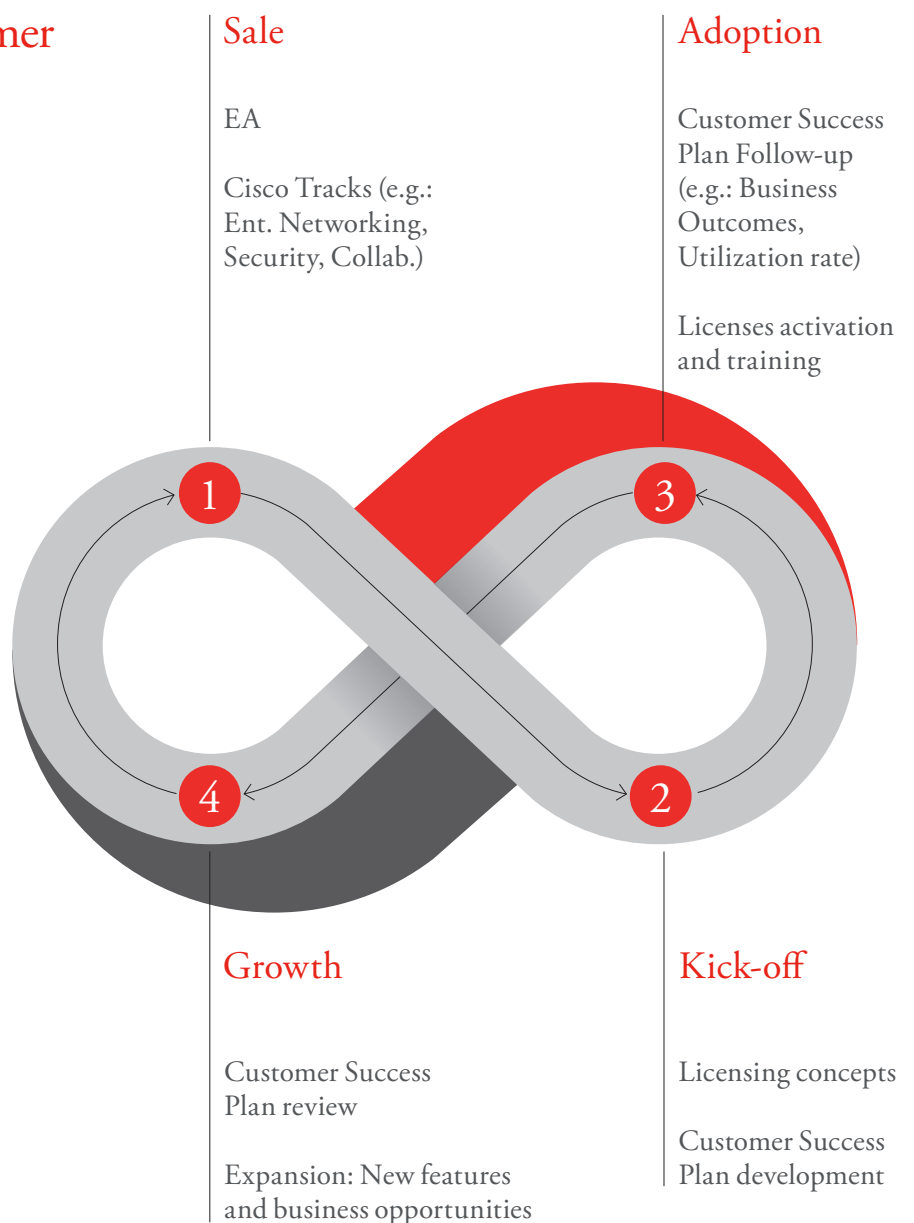

Customer Success Practice

Understand business areas challenges

Use technology solutions to their top efficiency

Improvement roadmap

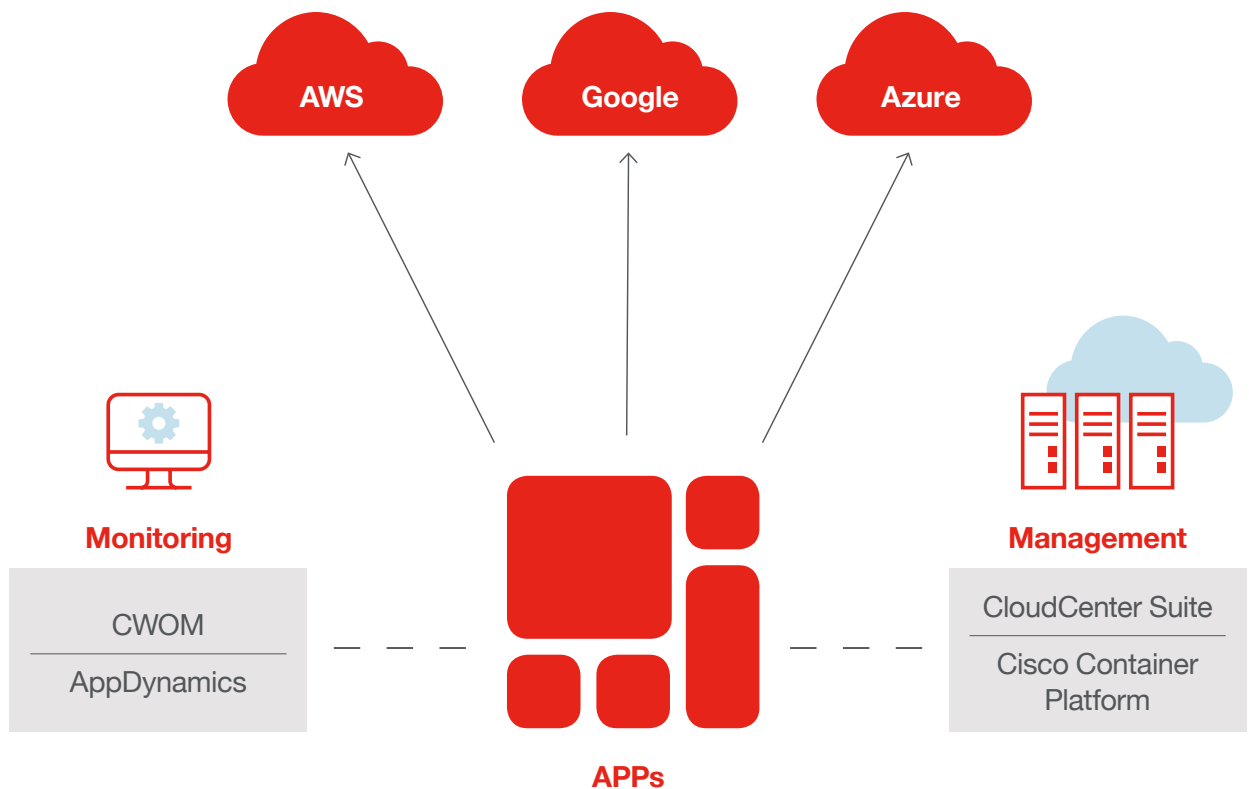

Technology adoption

1 European Cisco Cloud and Automation Demo Centre

Hybrid Cloud Demo Centre

Working with Cisco, we have created the definitive demonstration facility for Software Defined Network capabilities and cloud integration bringing together Cisco's leading software defined network (ACI), cloud integration (ACI Anywhere), cloud control (CWOM) and application performance (AppD).

2 LOOP Innovation

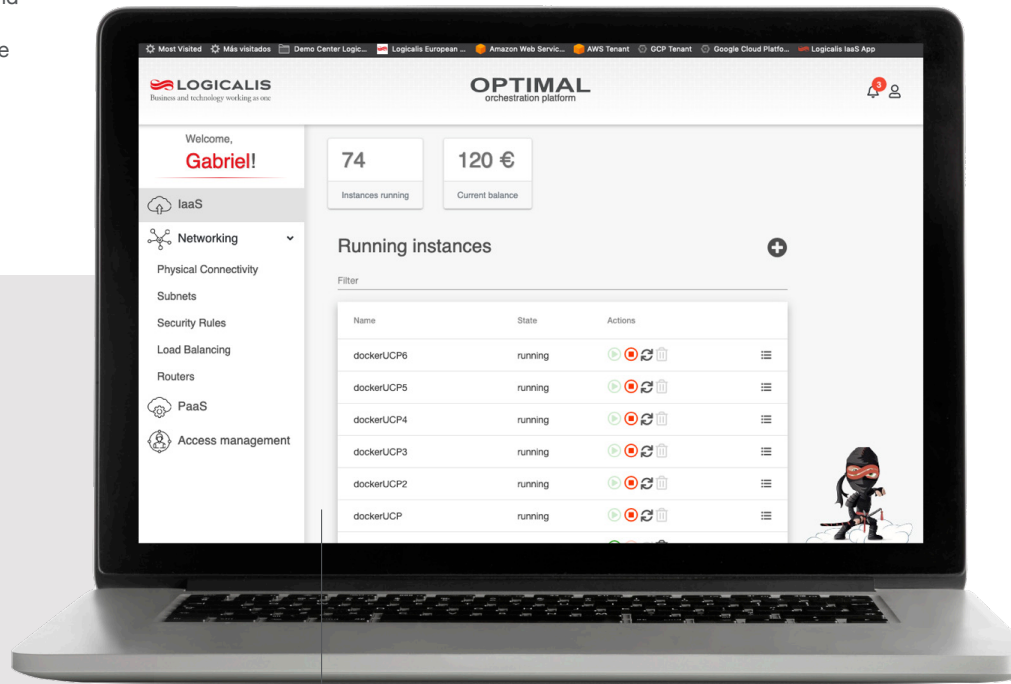

Using Cisco's open platforms and DevNet capabilities, we have created the **Logicalis Optimal Orchestration Platform (LOOP)** that our customers can adopt and align with their Cisco products. Discover how, through LOOP, we define new managed services across the Cisco environment.

{ LOOP }

SPECIFICATION

Logicalis Optimal Orchestration Platform

Internal Development
Microservice Based [Docker, K8s]
Production Ready
CI/CD: **Dev, QA, Staging, Prod**
Deployed in Multicloud, using **CCS**
On **CCP** Kubernetes Clusters
Secured by **ACI**
Operating Prod on **HyperFlex**
Monitored by **AppDynamics**

LOOP's clean user interface clearly shows the number of instances running and the current balance.

3 DevNet

To ensure our customers can harness the power of Cisco open platforms now, in partnership with PanonIT, we have created our own DevNet Team. Now we can help our customers accelerate their development journey, by not just exploring Cisco development but actually delivering it, today!
